Part# 8600454

With Optional R & I Terminal

Introducing the 24 and 28 SI series Alternator. Replacing the popular 22SI series, the 24SI boasts dual internal fans to provide maximum cooling efficiency and withstand higher engine temperatures. 24SI is available in both J180 mount and Pad mount style, and is rated at 160 Amps. 28SI is rated at 180 Amps, and is also available in J180 and pad mount styles.
